A GROWING NEWSPAPER IN A GROWING COMMUNITY

Volume 56, Number 29 | CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA | Friday, May 12, 1950

A Word In Our Defense

A complaint common to all community newspapers was registered this past week with the Campbell Press. A subscriber complained that news releases that she herself was very much interested in did not appear regularly in the columns of the local paper. This particular subscriber in common with many others did not understand the functions and problems of publishing a community weekly newspaper. It was her contention that too much news of a foreign nature to this community found its way into her columns. She was wrong. At least ninety percent of the news material that is used weekly in The Campebll Press is of local interest. And when we say "local interest" we mean news that has direct bearing on the welfare of the immediate district—news of local residents, former residents, deaths, church notices, etc.

Your local community weekly is in an unfortunate position in that it is expected to compete with large city dailies. It would seem that a certain percent of the local residents do not realize that there are two definite news fields. One that the large metropolitan type newspaper successfully covers and one that the community weekly newspaper covers. The one covered by your local paper records the little homey, personal happenings that you and your friends are so much interested in, such as society notes, church happenings, school news, etc. These local events are of little interest to people living outside of Campbell, therefore they are not recorded in larger newspapers. In that field only can your local newspaper do full justice to its community.

The issue of the Press of the 5th was to all intents and purpose an average issue—one of the 52 that you regularly receive throughout the year. We discovered that it contained 379 column inches of reading matter or about 15,160 words, filling roughly 32 percent of the entire newspaper; 411 column inches of advertising or about 37 percent, exclusive of fourteen legal notices that took a space of 175 inches and a classified column taking up 29 inches of space.

Among the 65 news stories and personal items we found a total of 450 names of persons who were prominent in the local news last week.

News material in the issue of the 5th was handled by 15 persons including our own staff and publicity chairmen of various local societies and organizations.

From the standpoint of mechanical production, including typesetting, casting, make-up, make-ready, printing, folding and mailing the Campbell Press required more than 68 man hours of labor added to approximately 50 man-and-woman hours reporting and editing. Six persons shared in the actual manufacturing work in our printshop before you received your Press Saturday morning.

Despite the errors that some of you undoubtedly found in the newspaper, there were consumed more than 6 hours in checking and reading proof—otherwise you would have found a great many more "typographical errors."

This last paradox becomes a great deal easier to understand when you find that an eight page issue of the Campbell Press contains better than 13,000 separate pieces of metal, including Linotype slugs, hand-set type, border, casts, etc.

And after contemplating the small margin of profit in the newspaper business—the long, hard hours of production, the sleepless nights spent working in the plant we can't help wondering what possessed us to enter this profession. It is our candid opinion that the only answer to that question is that we were too young when started the business to know any better.—EWB

VOTE 'YES' ON BONDS TUESDAY

During recent weeks the Campbell Press has endeavored to present to the voters of the district all the reasons why the passage of that $950,000 bond issue for enlargement of the Campbell Union High School is essential to the future of the children of the district.

The terrific increase in enrollment due to the postwar population migration to California has been described in detail, as well as its resultant crowding of the high school plant and its future effect on the school and community.

From here on, the voters of the district hold the future of their children in their own hands. Next Tuesday, May 16, the voters must record their answer to the question of this and future generations of school children who are asking that they be given the right to a full education, unrationed, unrestricted by lack of facilities and classrooms.

Vote Yes on May 16 and assure the future of your community and democracy. Be sure your child's name is not recorded on a waiting list instead of an enrollment list. The cost is small to the individual, while the returns will be unlimited.—TLJ

Hospital Board Awaits Results Of State Advisory Council Meeting

Any move by the West Valley Hospital District to finance within the district entire cost of construction of the proposed 50-bed hospital will be held up until after the meeting of the State Hospital Advisory Council next month. The hospital district board of directors, meeting with invited representatives of the three communities to be served by the hospital, reached this decision on Monday night during lengthy discussion at Hotel Lyndon in Los Gatos.

The hospital now holds number 16 on the priority list for state and federal aid, and has a good chance of climbing nearer to the top by the time the council meets in June, members and representatives were told.

A move of one group to float a bond issue covering entire cost of construction received considerable discussion at the outset of the meeting, but was voted down later when board members stressed that the hospital district originally was formed on the half-promise that state and federal financial aid would be forthcoming. Hospitals receiving approval of state hospital officials are granted one-third state and one-third federal financial aid in total cost of construction. The remaining third must be raised within the district.

West Valley Hospital District, composed of the communities of Saratoga, Campbell and Los Gatos, is seeking this aid. Should the state council fail to apportion funds to the local district at its June session, another strategy meeting will be called by the West Valley board to consider other means of financing the hospital.

A 10-acre site near Vasona Junction recently was acquired by the board for the future hospital site.

A speaker at the Monday meeting was hospital expert Larue Sorensen who answered questions on hospital administration and other factors.

Candidates for the offices of vice-president, secretary, treasurer, and two directorships have been lined up, but the responsible position of president is finding no contenders for the office—there isn't even one candidate. Anyone interested can contact one of the perplexed nominating committee members, Frank Accardi, Laurance J. Hill and Fred Jones.

Cambrian Citizens To Vote May 19

The rapid growth of new subdivisions in the Cambrian School District has prompted school trustees and Cambrian citizens to call a school bond election Friday, May 19, which is calculated to raise $42,000 for additional space and facilities at the Cambrian School.

The subdivisions which trustees expect to swell the school enrollment still further are Cambrian Park, Camden Gardens, Ellen Acres, El Solyo Tract, Leigh Avenue Tract, Cambrian Drive-Briarwood Way Tract, and Olympia Tract. Enrollment is predicted at the 938 mark for October, 1951, when new homes are completed. The school was originally built for about 148 students.

At present, the school district is not bonded to its capacity. It needs $42,000 to reach its capacity. The money will be used for cafeteria and playground equipment, particularly; a garage for the school bus, and expenses entailed in completing the master plan for the school.

Language Short On Descriptive Terms Rotarians Told By Dr. McKaye

The man of moderation in all things was the ideal person in Greek life, Dr. David L. MacKaye told Campbell Rotarians at their luncheon meeting Monday. Dr. MacKaye, who has been director of the adult center of the San Jose Unified School District for the past 20 years, was introduced by Attorney Norman A. Stoner, chairman of the day. New president-elect William Maderis presided. President Forrest Reese, convalescing after a recent operation, was welcomed back by the group.

Dr. MacKaye spoke on the subject, "The Greeks Had A Word For It." He deprecated the paucity of terms in the English language for distinguishing between good and bad characteristics of individuals, stating that the language is not rich enough in descriptive terms compared to Greek concepts.

In describing deviations from the ideal of the man of moderation, the speaker said these could be caused by excessive pride in wealth and position. This ego becomes so strong in some persons, he said, that they lose all ordinary social inhibitions.

Building Program Prompts Legal Move To Permit Grange To Hold Property

Incorporation papers have been filed by Orchard City Grange of Campbell as the first step in its plans to erect a Grange hall here. The Grange voted to incorporate at its meeting Tuesday night for the purpose of holding property and to prevent members from being liable for obligations in connection with the building program.

A. J. Emery, chairman of the building committee, pointed out need for incorporation to relieve individual members of responsibility for possible damage claims, and added that the incorporation cost would be negligible under the new non-profit corporation law.

The Grange holds title to a building lot on Fourth Street off Campbell Avenue, but may not choose this as its grange hall site, since the lot may be too small to afford the necessary off-street parking. As a start in its building fund, the organization holds $8000 in Series F government bonds which will mature in 1954.

Mrs. Clarence F. Helmbold, secretary of the building committee, has been corresponding with other granges in the state who have built meeting halls during the past year. She has obtained details of how the halls were financed, construction programs and other data, all of which will be used by Orchard City committee in outlining its own program of construction.

Emery said he would call a meeting of the building committee after the incorporation has been officially approved. Those on the committee, besides Emery and Mrs. Helmbold, are Herbert M. Shadle, Wesley Youngclaus, Lambert Skillman, Jerry Locke, Mrs. Mervyn Keesling and Mrs. Charlotte Sutter.

WALSH ANNIVERSARY

Mrs. Ray Martin, accompanied by Mrs. David Sanders, sang a group of songs appropriate to the occasion, and W. W. Johnson and Frank Blair sang a duet. Mrs. Clara Baldwin read an original poem and presented Mrs. Walsh with a beautiful bridal bouquet.

Many members voiced appreciation of the work of Mr. Walsh as Grange master. In concluding the program, grangers enjoyed community singing under leadership of Pomona Master J. C. Gordon.

On the business agenda was announcement that the California Physicians Service, an insurance group of which the Grange is a sponsor, has ruled that persons having an income exceeding $3,600 per year are no longer eligible for membership.

The Grange voted to have a picnic with the Cupertino Grange June 24 at the Saratoga IOOF Home. Proceeds of the June 27 hog event will be divided between the Future Faremrs group, which the Grange sponsors, and the Grange building fund.

Next meeting of the Home Economics Club will be this Friday at the home of Mrs. H. M. Shadle, Alice Way.

Mr. and Mrs. A. J. Emery, Mrs. T. J. Burnett and Mrs. James Brandt were the decorations committee for the meeting. Mrs. W. Windrem, refreshments chairman, was assisted by Mr. and Mrs. A. W. Simpson and Mrs. Anna Dolfin. Frank Bishop, master of Mount Hamilton Grange, was the visiting official.

Halstead Urges Coordination Of Water Proposals

John B. Halstead, candidate for State Assemblyman from the 29th district, is advocating a vigorous and concentrated effort to bring to, and conserve water in, Santa Clara Valley.

Coordination of all proposals into one master plan to bring in water at a price which the county can afford, is proposed by the candidate. These would include Santa Cruz water sheds, San Lorenzo river water via old Southern Pacific right of way or via Watsnville and Gilroy, Central Valley Project water from Delta Mendota canal and the Tracy Pumping station; American River-Folsom project, and the Reber Plan.

In addition, he proposes that reclaiming water wasted by sewer systems will amount to over 20 per cent of all water used in Santa Clara Valley. This water alone, if reclaimed, would amount to over 20,000,000 gallons of purified water daily and would carry the irrigation shortage.

If you keep a list of out-of-town numbers, you'll find calls are put through much faster—often in 30 seconds.

TIPS FOR TOP LONG DISTANCE SERVICE
Ways to save money and minutes on out-of-town calls

1. Reduced rates begin at six in the evening . . . and between six and seven is a good time to call. Long Distance rates are low. And nights and Sundays are a particularly fine bargain. For $2.00 or less (plus tax) you can make a station call anywhere in the country. After the first three minutes, time is charged by the minute . . . not as another three-minute period.

2. For best service, place your call with the operator like this: First, tell her the name of the town you're calling . . . then the telephone number (or the name and address). Next, if it's a person call, give her the name of the one you want to reach. And if you've made notes ahead of time, you'll find you can say as much in three minutes as in an average letter.

3. When you call across the country or across town, you're using a service that's a finer value than ever before. With your telephone, you can reach twice as many people as 10 years ago. You can call more of the people you want to call . . . more can call you. And at rates that make your telephone a real bargain.

SIX WOMEN, "THE CLINIC GROUP," MARK 20TH YEAR OBSERVANCE OF EACH OTHER'S BIRTHDAY

A group of six local women, whose unique bond is the observance of each other's birthdays, met Wednesday afternoon for luncheon in honor of the birthday of Mrs. H. B. Whitehouse.

For the past 20 years these six women have gathered regularly on the six birthday anniversaries. Hostess Wednesday was Mrs. Ben Austin. The luncheon was given at home of her daughter, Mrs. Ollie Jensen. As is their custom the members, who call themselves, with some humor, the Clinic Group, provided the salads, rolls and other items for the luncheon, while the hostess supplied the main dish. Each member contributes to the club gift for the member being honored.

All but one of the members reside in Campbell. Those in the group and their birthdays are Mrs. T. Arthur Robinson, February 8, Mrs. Ben Austin, August 30; Mrs. Henry Young, November 14; Mrs. Whitehouse, May 10; Mrs. C. C. Burns, December 14, and Mrs. G. A. Abbinette of Willow Glen, November 8.

Of the six, only one is a native born American, Mrs. Robinson. One, Mrs. Whitehouse, is a native of England, and the other four are natives of Canada. Although none of the members drives a car, they have managed to hold their six birthday observances each year for 20 years.

Their name was suggested some years ago by Mrs. Robinson, who remarked that when old friends gather together, their conversation turns eventually to descriptions of illnesses or ailments. Since that time this informal organization has called itself the Clinic Group.

The Stork AND The School Board

The stork has been extra busy during recent years—delivering a lot more precious little bundles than he ever averaged before.

The first of these are beginning to storm the schoolhouse doors right now, and their little brothers and sisters will follow them before we know it.

Members of our hard-working School Board know this all too well. They know what this additional enrollment will mean in terms of more classrooms, more teachers in the elementary grades, more textbooks and supplies. They're doing their best to get ready, but they can't do the job alone. They need the help of all—parents, professional people, businessmen.

A new restaurant, the Campbell Fountain and Grill, operated by an established Campbell restaurateur, will open in about 10 days at 205 Campbell Avenue, across the street from the Campbell Press.

Owner of the new cafe will be Reed Hughes, who has operated the Virginia City Grill, just around the corner, for the past 16 months. The new fountain will feature a greater floor area and a larger number of counter stools.

Hughes came here from his native Lon Angeles, where he had been in the restaurant business.

ELECTION JUNE 6

We've cut our food budget amazingly with our *new electric refrigerator*

Now we can buy ahead, save trips to the store, and have better meals . . . thanks to our new electric refrigerator with its generous frozen-food section and storage space for fruits and vegetables. There's more room for tall bottles, too . . . and lots more ice cubes. Yet, with all this increased space *inside*, the new electric refrigerator requires no extra room in the kitchen. It's thrifty to operate, too . . . only a few pennies a day with P. G. and E's low electric power rates . . . and it protects foods at a perfect temperature 24 hours a day.

Plan to see your electrical appliance dealer soon. Have the family look at the new models with you. The daily economies you'll enjoy will help pay the cost of owning a sparkling, new electric refrigerator.

Rev. Corwin Olds, Former Trapper, Talks On Canada

The Rev. Corwin Olds, minister of the local Congregational Church was the speaker at the May 1 noon luncheon meeting of the Campbell Rotary Club at the IOOF Hall. Formerly a trapper in North Saskatchewan, Canada, he spoke on the history and development of the Hudson's Bay Company.

Norman, Stoner, chairman of the day, introduced the speaker whose careers as minister, colonel in the chaplain division during World War II, and senior chaplain in the California National Guard, has been supplemented with varied pursuits such as department store managing in Bangor, Maine, and homesteading in Canada.

Hudsons' Bay was discovered in 1610 by a Frenchman in search of the Northwest Passage. The company bearing its name was formed by Prince Rupert of England in cooperation with a Frenchman, Le Grosselier, and received its charter granting the company the lands which drained into Hudson's Bay in 1670.

Later it merged with the Northwest Trading Company, controlling over one-third the lands of North America.

Rev. Olds spoke with first-hand knowledge of the Hudson's Bay Area. His three years as a trapper acquainted him with the "beautiful barren lands covered with wild flowers and moss which provided homes for large caribou herds and Athabascan Indians."

He mentioned the many lakes found scattered throughout the area.

The company traded on a credit basis with the Indians, a business policy it could not follow with the whites, said Rev. Olds.

Scouts In Annual Campbell Camporee; 88 Members Participate In Weekend Of Fishing, Swimming, Camp Activities

Eighty-eight Boy Scouts and 16 adult leaders spent last Saturday and Sunday on their annual camporee at the 4-H Club Camp on Soquel Creek. The Scouts back-packed into camp Saturday afternoon, set up camp, stayed overnight and left Sunday afternoon. During that period, activities included swimming, fishing, a campfire program, hiking and other scout work.

Each patrol was judged on its preparedness, camping skills preparation of meals, campsite, use and care of equipment and scout conduct. Every patrol qualified for one of the three top ratings. To receive an "A" award, only one "Fair" rating was allowed in each division. "B" patrols had to receive at least one "Good" rating in each division, and "C" patrols were allowed only two "Poor" markings.

"A" patrols were the Beaver and Raccoon patrols of Troop 47; Apache, Troop 34; Flying Eagle, Troop 33; Staff, Troop 32, and Wolf, Flaming Arrow and Flying Eagle, Troop 9.

Those patrols receiving "B" ratings were: Flaming Arrow, Troop 33; Wolf, Flying Eagle, Troop 34; Eagle, Raccoon, Flaming Arrow, Troop 32, and Wolf, Troop 47.

Rattlesnake Patrol of Troop 32, and Eagle Patrol of Troop 47 qualified for "C" awards.

Demonstrations receiving special attention during the camporee were: dish-washing system of Troop 47, making this camp task an easy and efficient chore; back packs tied with a diamond hitch, Troop 32; camp clothes hangers made of tree limbs, Troop 9; new type of fireplace, Troop 34; use of latest methods of cooking in aluminum foil without kettles, Troop 33.

LEADERS

Adult leaders participating in the camporee were: George Larson, Everett Nelson, committeemen, and Scoutmaster Earl Buck of Troop 32, Campbell; Scoutmaster J. B. Allcorn and Committeemen Leo F. Farone and Roy Corbett of Troop 9, Almaden; Committeemen Harold Bears, Clyde Kessner and Jack Owen, and Scoutmaster Arthur Downing of Troop 47, Union; Scoutmaster Harry Hammond and Junior Assistant Scoutmaster Douglas Brooner of Troop 33, Meridian; Assistant Scoutmaster Dick Barham, Committeemen Ed Mitchell and Donald Goodwin, and Scoutmaster Ed Carman of Troop 34, Cambrian.

Dick Kauffman of Troop 32 acted as camp bugler. Assistant Scoutmaster Barham of Troop 34 served as life guard during swimming periods. Scoutmaster J. B. Allcorn and Barham conducted non-sectarian church services in the outdoor amphitheater Sunday morning.

Assisting the scouters in the management and judging of the camporee were Explorer Scouts Marvin Scarper and Ralph Marsh, and Leader Robert McArthur of Post One, and Albert Smith, camping chairman.

A combination of ideal weather and campsite, together with the cooperation and spirit of the boys themselves led many of the scoutmasters to express the belief that this was the best camporee yet.

State College Summer Session Opens July 3

California's oldest publicly-supported college—San Jose State—is planning its largest summer session. It will open July 3 and close September 2 and will offer students a choice of six, three, or nine weeks of concentrated college courses. Students may earn a maximum of nine quarter units of college credit in the six-weeks' session and six quarter units in the three-weeks' session, or a total of 15 quarter units in the nine-weeks' session. A quarter unit is equivalent to two-thirds of a semester unit.

A total of 374 courses will be offered in the 1950 Summer Session, of which 290 will be given during the six-weeks' session from July 3 to August 11. Fifteen courses will cover the entire nine weeks while 69 will be offered only during the three-weeks 'session from August 24 to September 2.

Seventeen of the college's twenty departments will participate in the summer session. Only the military science and modern language departments and the Police School are not offering courses. The faculty will be composed of 188 instructors, of whom 123 are members of the regular college staff. A distinguished group of teachers from other parts of the country will join the faculty for the Summer Session.

Special features of the 1950 summer session will be the popular demonstration school, two personally conducted educational tours to the Pacific northwest, a series of plays presented by the drama department, a speech workshop for teachers, a kindergarten-primary workshop and a varied program of recreation.

WATER AND JOBS

Water ... is our Valley's and our State's No. 1 Problem. On Water Depends Our Economic Future. This is Fully Understood and Appreciated by our Candidate ...

JOHN H. HALSTEAD

But, our Valley and our State has other problems too. No. 2—after water—is jobs.

We cannot have unemployment and still be prosperous. Water, of course, affects the number we can employ—that's why we emphasize water as first and foremost in our campaign. We know John Halstead can do something about water. That is his and our main objective. Now what are his thoughts on employment?

No. 1—That the State activate an agency to aid and cooperate with the plans of communities to increase their employment potentials — whether those potentials are agriculture, industry, tourist, etc. No. 2—That the State Employment Service be expanded to include greater training programs to increase the number of skills and in matching workers and jobs.

California's work force is increasing by 27,000 each and every month. Jobs MUST be found. Research and planning will meet this situation the same as it will meet our water problem. Self-help and initiative has never failed the American public yet. It won't now if we have legislators such as

JOHN H. HALSTEAD

HELPING US TO IMPLEMENT (PUT IN OPERATION) THAT INCENTIVE.

This advertisement paid for by the Halsted for Assembly Committee, A. E. Jones, Chairman.

POPULAR RECORDS: The sympathies of thoughtful people go out to the hundreds of thousands of displaced people in the world today. Many communities have made a place for one or more displaced persons and many more are looking forward to the arrival of one of these families. The record industry, with its finger on the pulse of the public interest, has presented a dramatic musical picture of the plight of the displaced person in Vic Damone's WHERE CAN I GO (Mercury 5-402). This is a deeply stirring disc and should make you stop and think. Follow this recording with the Andrews Sisters' version of COUNT YOUR BLESSINGS (Decca 14502) and realize once again just what it means to live in America.

As catchy as the measles is Perry Como's offering of HOOP-DEE-DOO (Victor 20-3747). Tune rolls along at a mellow, happy polka pace. Perry and the Fontaine Sisters sing the merry lyrics.

Razz 'm tazz honky-tonk styling plus a mellow piano banging away mark Beatrice Kay's version of THE OLD PIANO ROLL BLUES (Columbia 38773). The flip is a gay '90's flavored version of WHY DO THEY ALWAYS SAY NO?

The perennial "Jolie Blond" has bobbed up in a new guise—JOLIE BLOND LIKES THE BOOGIE (MGM 10681). Bob Wills sings the lyrics over a strong banjo and guitar boogie beat.

CHILDREN'S RECORDS: The youngsters with well developed imaginations will enter right into the spirit of the GLOOBY GAME (Columbia MJV-61). Planned for the 4-8 age group, these records lead the child into the magic land of Make Believe. The Modernaires, a top vocal group in the popular field, show the way through the very enjoyable GLOOBY GAME.

CLASSICAL RECORDS: A wealth of interesting and exciting music awaits the adventurous record collector who will search through the catalogues of the several comparatively new labels. These catalogues, mainly recorded in Europe, contain many lesser known works of the great masters as well as distinctive readings of the established classics. Companies like Capitol, Certa-Soria, Concert Hall, London, Mercury and Vox are making available a great deal of previously unrecorded music using top European artists and orchestras. Technically the surfaces equal those put out by our major companies and in many cases are superior. We are truly indebted to these smaller companies for enriching the catalogue of classical recordings and introducing so many fine artists and outstanding orchestras and conductors.

STRAUSS: BURLESQUE FOR PIANO AND ORCHESTRA, G. Muench pianist and the Munich Broadcasting Symphony Orchesly little known work. Both of tra. A. Dressel, conductor and LISZT: CONCERTO FOR PIANO AND ORCHESTRA NO. 1 in E Flat Major, R. Schmid, pianist, the Munich Broadcasting Symphony Orchestra with Hans Rosbaud, conductor (Vox PL 6110) make an interesting coupling of a standard classic and a relative-these are one movement concertos full of fluent melodies, sparkle and gaiety. Schmid plays the Liszt Concerto in a spectacular manner, an interpretation such as Liszt himself might have given. If you are not familiar with the Strauss: Burlesque you have a real treat in store. Written when Strauss was only twenty-one, the Burlesque is full of youthful vitality and brilliant pianistic display. Technically this is one of the best LP records on the market.

Late offerings by Capitol are distinctive readings of the TCHAIKOVSKY: SYMPHONY NO. 5 and the STRAUSS: WALTZES.

Editor The Campbell Press,
Campbell, Calif.
Dear Sir:

The 1950 Grand National Junior Livestock Exposition proved to be the most successful to date. Much of the credit for this year's achievement is due the press of California for its splendid support of the show.

Please accept our thanks for the valuable part your publication played in this regard.

Yours Sincerely,
FRED W. GRAY
Public Relations Director

Willem Mengelberg conducts the Berlin Philharmonic Orchestra in the TCHAIKOVSKY SYMPHONY NO. 5 (Capitol P-8053). Clemens Krauss conducts the Vienna Philharmonic Orchestra in three of the Strauss Waltzes, BEAUTIFUL BLUE DANUBE, ROSES FROM THE SOUTH and VOICES OF SPRING. Erich Kleiber conducts the Berlin Philharmonic Orchestra in two more Strauss waltzes; THOUSAND AND ONE NIGHTS and the ACCELERATION WALTZ (Capitol P-8061). You will find these readings considerably different in interpretation than the domestic versions.

Two rare selections of seventeenth century Italian music are offered by Cetra-Soria on one LP record— CORELLI: CONCERTO GROSSO IN D MAJOR and GEMINIANI: CONCERTO GROSSO, OP. 3, No. 2 (50, 021). Carlo Zecchi conducting the orchestra of Radio Italiana. This is charming, intimate music, reminescent of a period long past.

Solve Problems At Local Level Says Kirkwood

Robert C. Kirkwood, assemblyman from the 28th District and candidate for re-election, today discussed the problems facing state and local governments with members of the Santa Clara University political science classes.

He pointed out the current tendency for city and county governments to look to the state for help in solving local problems, and stressed the urgent need to reverse this tendency and return the government to the people.

"Two fundamental problems," Kirkwood said, face our state government today. An unprecendented population growth in California has required an expansion in agencies and expenditures to provide the services demanded by the citizens. This growth has placed tremendous burdens on the schools, on our welfare structure, in fact, on every government service in which the state is interested."

"To meet these needs our state and local governments have had to appropriate larger budgets and provide for increased revenues through a broadening of the tax base.

"There also has been an increasing tendency on the part of local and county governments to look to the state for help in solving their local problems at home where they can be more closely studied by the voters, who must, in the final analysis pay the bill."

Kirkwood pointed out that greater responsibility for providing government services at the local level will make for tighter controls on the services that must be rendered and closer scrutiny of the services on the part of the electorate who must pay for them.

"Each local problem pushed up to the state or national level for solution removes it from community responsibility where it belongs and in many instances lessens the efficiency with which it can be solved," he said.

"We cannot continue to demand more and more services from our state and national governments without losing to bureaucracy the responsiveness to local needs that local government provides. Nor can we keep adding more and more services from any level of government without providing the revenues through taxes with which to carry them out.
